Summary of Benefits

January 1, 2024–December 31, 2024

You have choices about how to get your Medicare benefits

- One choice is to get your Medicare benefits through Original Medicare (fee-for-service Medicare). Original Medicare is run directly by the federal government.
- Another choice is to get your Medicare benefits by joining a Medicare health plan (such as CarePartners Access (PPO)).

Tips for comparing your Medicare choices

This *Summary of Benefits* booklet gives you a summary of what CarePartners Access covers and what you pay.

- If you want to compare our plan with other Medicare health plans, ask the other plans for their Summary of Benefits booklets. Or, use the Medicare Plan Finder at www.medicare.gov.
- If you want to know more about the coverage and costs of Original Medicare, look in your current *Medicare & You* handbook. View it online at www.medicare.gov or get a copy by calling **1-800-MEDICARE (1-800-633-4227)**, 24 hours a day, 7 days a week. TTY users should call **1-877-486-2048**.

Things to Know About CarePartners Access (PPO)

Who can join?

To join CarePartners Access, you must be entitled to Medicare Part A, be enrolled in Medicare Part B, and live in our service area.

The service area for the plan described in this document includes the following counties in Connecticut: Hartford, Litchfield, Middlesex, New Haven, New London, Tolland, and Windham.

Which doctors, hospitals, and pharmacies can I use?

CarePartners Access has a network of doctors, hospitals, pharmacies, and other providers. You must generally use network pharmacies to fill your prescriptions for covered Part D drugs. You can see our plan's *Provider and Pharmacy Directory* at our website (www.carepartnersct.com).

Our plan allows you to see providers outside of our network (non-contracted providers). However, while we will pay for covered services provided by a non-contracted provider, the provider must agree to treat you. Except in emergency or urgent situations, non-contracted providers may deny care. In addition, if you use an out-of-network provider, your share of the cost for covered services may be higher.

What do we cover?

We cover everything that Original Medicare covers—and more.

- Our plan members get all of the benefits covered by Original Medicare. For some of these benefits, you may pay less in our plan than you would in Original Medicare. For others, you may pay more.
- Our plan members also get more than what is covered by Original Medicare. Some of the extra benefits are outlined in this booklet.

CarePartners Access covers Part D drugs, as well as enhanced coverage of certain drugs such as select erectile dysfunction (ED) drugs, vitamins and minerals, and cough/cold products. In addition, CarePartners Access covers Part B drugs such as chemotherapy and some drugs administered by your provider.

- You can see the complete plan formulary (list of Part D prescription drugs) and any restrictions on our website, www.carepartnersct.com.

How will I determine my drug costs for CarePartners Access (PPO)?

Our plan groups each medication into one of six “tiers.” You will need to use your formulary to locate what tier your drug is on to determine how much it will cost you. The amount you pay depends on the drug’s tier and what stage of the benefit you have reached. The amount you pay also depends on whether you fill your prescription at a preferred pharmacy or a non-preferred pharmacy. Later in this document, we discuss the benefit stages: Initial Coverage, the Coverage Gap, and Catastrophic Coverage.

This document is available in other formats such as Braille and large print.

You may get your drugs at network retail pharmacies and mail order pharmacies.

If you reside in a long-term care facility, you pay the same as at a preferred retail pharmacy. You may get drugs from an out-of-network pharmacy, but you may pay more than you pay at an in-network pharmacy. During this stage, the plan pays its share of the cost of your drugs and you pay your share of the cost.

**Prescription Drug Benefits:
Coverage Gap**

CarePartners Access

Most Medicare drug plans have a coverage gap (also called the “Donut Hole”). This means that there’s a temporary change in what you will pay for your drugs. The coverage gap begins after the total yearly drug cost (including what our plan has paid and what you have paid) reaches \$5,030.

After you enter the coverage gap, you pay nothing for covered Tier 6 vaccine drugs obtained through a retail pharmacy, 25% of the plan’s cost for covered brand name drugs and 25% of the plan’s cost for covered generic drugs. The table below shows your cost share for insulin during this stage. You stay in this stage until your costs total \$8,000, which is the end of the coverage gap. Not everyone will enter the coverage gap.

Insulin

	30-day supply	60-day supply	90-day supply
Retail cost sharing	\$35	\$70	\$105
Mail order cost sharing	\$35	\$70	\$70

**Prescription Drug Benefits:
Catastrophic Coverage**

CarePartners Access

After your yearly out-of-pocket drug costs (including drugs purchased through your retail pharmacy and through mail order) reach \$8,000, you pay nothing for covered Part D drugs and for excluded drugs that are covered under our enhanced benefit. During this payment stage, the plan pays the full cost for your covered Part D drugs and for excluded drugs that are covered under our enhanced benefit.
