HEDIS Hybrid Measures Tip Sheet

The following slides contain helpful tips on the HEDIS hybrid measures that require medical record review each year.

They include:

- Best practices and what documentation should be in the medical record for each HEDIS hybrid measure
- What documents and time periods will be requested from the provider office for each measure during the annual HEDIS Medical Record Review (February-April)

HEDIS Hybrid Measures Tip Sheet

HEDIS MEASURE	CARE FOR OLDER ADULTS	COLORECTAL CANCER SCREENING	CONTROLLING HIGH BLOOD PRESSURE
INDICATOR	COA	COL	CBP
Date Range:	Current measurement year	Performed within 10 years of current measurement year	Current measurement year
What is needed:	<ul style="list-style-type: none"> <input type="checkbox"/> All office/telehealth visit notes with physician signed medication list in measurement year <input type="checkbox"/> Medication review, functional status assessment, and pain assessment each year 	<ul style="list-style-type: none"> <input type="checkbox"/> Colonoscopy report with result performed within the last 10 years <i>Do not use abbreviations for “colonoscopy”</i> <i>If no colonoscopy, send:</i> <ul style="list-style-type: none"> <input type="checkbox"/> Sigmoidoscopy results or CT Colonography performed within last 5 years; <i>or</i> <input type="checkbox"/> Stool DNA (sDNA) with FIT test results within last 3 years; <i>or</i> <input type="checkbox"/> Fecal Occult Blood Test (FOBT) in Measurement Year <i>For all, document exact year colorectal cancer screening test/procedure was performed</i> 	<ul style="list-style-type: none"> <input type="checkbox"/> All blood pressure flowsheets in current measurement year <input type="checkbox"/> All office/telehealth visit notes with dated blood pressure readings in measurement year <input type="checkbox"/> Repeat blood pressure if initial BP is $\geq 140/90$ (controlled is $< 140/90$) <input type="checkbox"/> Specify the exact dates and readings for patient-reported blood pressures taken at home with a digital device
Other:		If no information found, send last office or telehealth office visit note	If no blood pressure reading available, send last office or telehealth visit note

HEDIS Hybrid Measures Tip Sheet

HEDIS MEASURE	BLOOD PRESSURE CONTROL FOR PATIENTS WITH DIABETES	EYE EXAM FOR PATIENTS WITH DIABETES	HEMOGLOBIN A1C CONTROL FOR PATIENTS WITH DIABETES
INDICATOR	BPD	EED	HBD
Date Range:	Current measurement year	Current measurement year	Current measurement year
What is needed:	<ul style="list-style-type: none"> <input type="checkbox"/> All blood pressure flowsheets in current measurement year <input type="checkbox"/> All office/ telehealth visit notes with dated blood pressure readings in measurement year <input type="checkbox"/> Repeat blood pressure if initial BP is $\geq 140/90$ (controlled is $< 140/90$) <input type="checkbox"/> Specify the exact dates and readings for patient-reported blood pressures taken at home with a digital device 	<ul style="list-style-type: none"> <input type="checkbox"/> All eye exams in measurement year and prior year <input type="checkbox"/> Two most recent office/telehealth visits notes in measurement year <input type="checkbox"/> Clearly document positive or negative for diabetic retinopathy <input type="checkbox"/> Document eye exam date. Include provider signature (written or electronic) and clearly printed provider name under signature to indicate who signed off and performed the eye exam 	<ul style="list-style-type: none"> <input type="checkbox"/> Last hemoglobin A1c (HbA1c) date and result in measurement year <input type="checkbox"/> Two most recent office/telehealth visit notes in measurement year
Other:	If no blood pressure reading available, send last office or telehealth visit note	If no eye exam in last 2 years, send most recent eye exam with name of eye provider	If there was no A1c result, send last office/ telehealth visit note

HEDIS Hybrid Measures Tip Sheet

HEDIS MEASURE	TRANSITIONS OF CARE	
INDICATOR	TRC	
Date Range:	Current measurement year	
What is needed:	<p>Admission: Documentation in outpatient medical record that PCP or ongoing care provider received notification of patient admission on the day of admission or up to 2 days after inpatient admission</p> <p>Documentation may include:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Email/fax notification of admission <input type="checkbox"/> Pre-operative or pre-admission examination for scheduled admissions or orders for tests/procedures during stay <input type="checkbox"/> Emergency Department progress note indicating patient disposition: <i>Patient Admitted</i> 	<p>Discharge: Documentation in outpatient medical record of the following 3 components:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Discharge information received* on date of discharge through 2 days after discharge. Must include: inpatient practitioner responsible for care; procedures or treatment provided; discharge diagnoses; medication list; test results; and instructions for patient care post-discharge <input type="checkbox"/> Patient engagement with PCP or ongoing care provider within 30 days after discharge date via office/home/telehealth visits, telephone or email encounters <input type="checkbox"/> Documentation of medication reconciliation on date of discharge through 30 days.
